Our educational Project

eduqa nursery schools have their own educational method.

The principles, methodology and specific interest areas have a main goal: to develop happy children.

We also ensure that all children are provided with the opportunity to develop their full potential academically, physically and socially.

Educational principles:

- Harmonious and complete child development.
- Building up a positive self-image.
- Stimulate the growing up process.
- Foster one-to-one assistance
- Learn to learn.
- Boost creativity.
- Learning values.

Methodology: Learning through discovery and play.

- Corners and workshops.
- Stimulating environment.
- Outside play daily routine.
- Routines

Main educational areas:

Personal and Social Development

Activities and opportunities are provided which allow children to share experiences, to relate to others and to develop self-reliance and self-esteem. We actively encourage children to start recognising their feelings and deal with them. We promote a positive self-image.

Language and Literacy

Focusing on identifying and developing the language and communication abilities of children, we extend and reinforce all skills related to communication.

Mathematical Development and knowledge and Understanding of the World

More than just numbers, mathematics enhances the development of concentration, attention, memory skills, scientific skills and the understanding of basic concepts such as time...Naturally included in the children's daily routine and focused activities, we lay the foundations and we start building these skills with the children.

The above mention principles and methodology are reinforced with the following areas of our educational project:

- English.
- Music.
- Psicomotricity.

Open communication with parents

We believe that education is a team effort involving the child, the parents and the teachers and we therefore strive to foster a friendly, cooperative working relationship between home and school. For us it is essential that there are good lines of communication between home and school.

- Parents are invited to several meetings along the school year at the nursery with the Headteacher and the Nursery teachers when details of organisation and curriculum are explained and questions from parents are answered.
- Tutorial interviews to inform parents about their childrens' evolution.
- Parent-teacher interview evenings threee times a year where written reports are handed out and discussed.
- The School Diary: we provide you with a detailed Daily Report Sheet for each child you have in our care.

Opening hours

eduqa is open Monday to Friday from 7.30h to 19.00h.

Childcare Services

- All-year-round care and education offered for children aged from 0-3 years.
